## FOREWORD

This report is one of a series of provincial reports on the results of the 1980 Census of Population and Housing conducted on May 1, 1980.

Demographic data presented herein consist of population distributions according to age, sex, marital status, highest grade completed and literacy. Other bases as gainful occupation, industry and migration are included likewise.

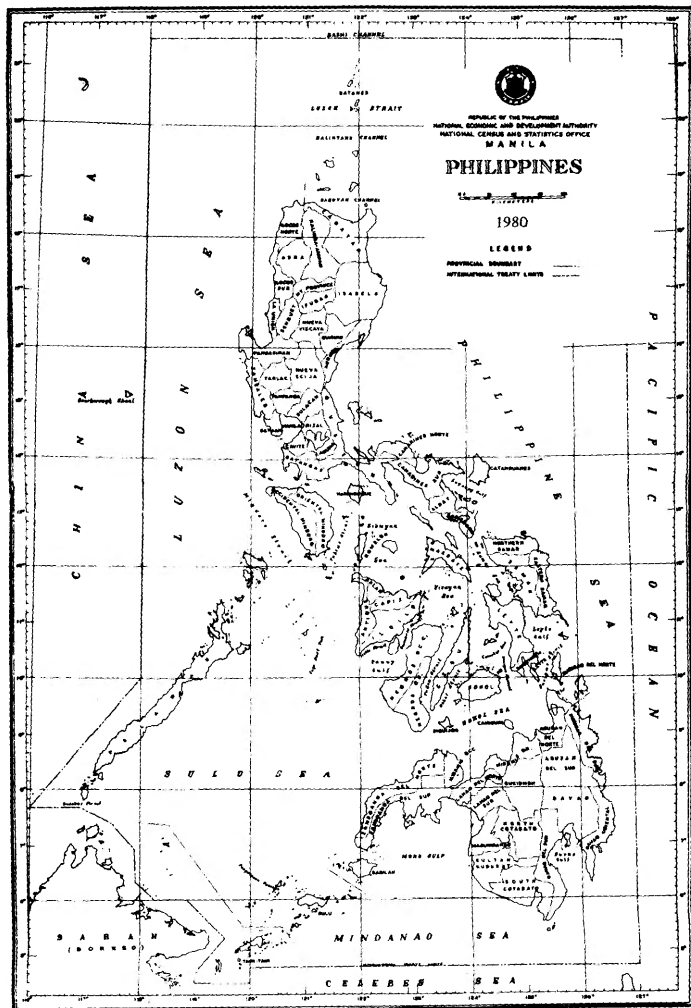

In the other aspect of the census, the following housing characteristics are considered: type of building, structural characteristics, floor area, type of tenure, use and source of water supply, lighting, type of toilet facilities, kind of cooking fuel used and appliances.

Subsequent issues will be the National Summary (Volume II) containing summary data on the final provincial reports and the Special Volume on National Capital Region (Metro Manila Area) which will cover data on the social, economic and demographic characteristics of the region.

Grateful acknowledgment is due the National Census Coordinating Board, government agencies, committees and the local coordinating boards for their invaluable assistance and cooperation.

  
TITO A. MIJARES

Manila, Philippines  
May 1983

E	PH Form 4 -- Collective Household Questionnaire .....	146

# Explanatory Text

## GENERAL

### INTRODUCTION

The National Census and Statistics Office conducted in May 1980, the 1980 Census of Population and Housing. This type of Census was also undertaken in May 1970. In May 1975 the Census of Population was taken as Phase I of the 1975 Integrated Census of the Population and Its Economic Activities. This nationwide undertaking was designed to obtain comprehensive data on the size, distribution, structure, change and socio-economic characteristics of the population and to take inventory of the housing accommodations, their geographic location, structural characteristics, available facilities, etc.

The population report contains data gathered from private households as well as collective households, while data on housing were collected from private households only.

It should be emphasized at this point that a complete enumeration of all households throughout the country was made but only sample household questionnaires representing 20 percent of the listed households were processed and the data published in this volume. In so doing, however, the total population count by barangay, male and female, obtained from the listing sheet taken simultaneously during the enumeration was maintained in computing the weights or expansion factors. It should also be noted that data on Tables 1 to 4 of the population tables refer to total population, that is, the population of the private households plus the collective households while Tables 5 to 10 cover exclusively the private household population.

Pursuant to the provision of Batas Pambansa Bilang 72, a final count of the population, by sex at barangay level was submitted to the President and was approved under Proclamation No. 2170 dated March 12, 1982. This report was published separately in 74 provincial volumes.

### AUTHORITY FOR THE 1980 CENSUS

Under Commonwealth Act No. 591, the National Census and Statistics Office is authorized "to prepare for and undertake all censuses of population, agriculture, industry and commerce."

It may be mentioned in this regard that sometime in February 1980 Parliamentary Bill No. 809 was presented at the Batasang Pambansa, providing for the taking of an integrated census every ten years beginning 1980, with May 1 of every census year as the reference date. This bill was approved into Batas Pambansa Bilang 72 on June 11, 1980, more than one month after the start of enumeration.

### INTER-AGENCY PARTICIPATION

The expertise and technical advice of the National Economic and Development Authority Inter-Agency Committee on Population and Vital Statistics and its Technical Working Group on 1980 Census of Population and Housing played a vital role in the successful undertaking of the census.

The Committee's main function was to review the questionnaire, methodologies, concept, tabulation and other related aspects of the census in the production of data and development of systems that would produce more reliable and accurate result. It had for its chairman the Dean of the University of the Philippines Population Institute (UPPI) and for its members, one representative each from the Ministries of Human Settlements (MHS), National Defense (MND), Education and Culture (MEC), Health (MOH) and Local

## EXPLANATORY TEXT

Government and Community Development (MLGCD); the Commission on Population (POPCOM); National Economic and Development Authority (NEDA); and two representatives from the National Census and Statistics Office (NCSO). The Technical Working Group (TWG) for the 1980 Census of Population and Housing was headed by the Chief of the National Census and Household Surveys Department of NCSO and the members were representatives from the MHS, EPRS-NEDA, SCO-NEDA, POPCOM, UPPI, MOH, MEC, and the National Housing Authority (NHA).

Recommendations were likewise solicited from other government agencies for questions that should possibly be included in the population and housing portions in order to fill their data needs.

As early as August 1977, an NCSO Technical Committee for censuses was created. Ranking officials of the National Census and Statistics Office comprised the committee, with the Assistant Executive Director as Chairman, the Chief of the National Census and Household Surveys Department (NCHSD) as Vice-Chairman and Heads of six other departments and staff offices as members.

The committee coordinated with the Inter-Agency Committee and TWG of the NEDA on the technical aspect of the census and rendered a monthly progress report to the Executive Director. It provided the overall direction of the activities of the different subcommittees on census. The two subcommittees created, the Sub-Committee on Population and Housing Census and the Sub-Committee on Operations and Logistics Support, were directly charged with the preparatory work for the census undertaking.

### CENSUS BOARDS

A systematized involvement of government agencies and instrumentalities was made possible largely through the concerted efforts of the members of the National Census Coordinating Board (NCCB) and the Provincial, City and Municipal Census Boards. The national board was created by NEDA Memorandum Order No. 4-80, dated April, 1980 and the local boards, by Memo Order No. 5-80, dated April 1, 1980, by virtue of the powers vested in the Minister of Economic Planning under Section 3 of Presidential Decree No. 1200.

The NCCB was headed by the Minister of Economic Planning as Chairman with the Executive Director as Executive Officer. Named as members were the Ministers of Agriculture, Budget, Education and Culture, Finance, Human Settlements, Public Works, Justice, Labor, Local Government and Community Development, National Defense, Natural Resources, Public Highways, Public Information and Transportation and Communication. Rules and regulations necessary for the successful undertaking of the census were issued by the Board.

At the local government level, similar functions were carried out by the Provincial City and Municipal Census Boards. The Provincial Governor headed the Provincial Census Board while the Division Superintendent of Schools was Vice-chairman. Members were the Highway District Engineer, Provincial Auditor, Provincial Commander of the Philippine Constabulary, the Provincial Development Officer and the Provincial Agriculturist. The City Census Board was composed of the City Mayor as Chairman; City Superintendent of Schools, Vice-chairman; and the City Engineer, City Assessor and City Development Officer, members. Finally, the Municipal Census Board had for its Chairman the Municipal Mayor and ably assisted by the District Supervisor as Vice-chairman. The members were the Municipal Agriculturist, Station Commander, Municipal Treasurer and the Municipal Development Officer.

## **EXPLANATORY TEXT**

For each of these local census boards, the Provincial Census Officer, City Census Officer and the Municipal Census Officer were designated Executive Officer of their respective Board.

### **CENSUS ORGANIZATION**

The overall direction and instructions for the census undertaking emanated from the Executive Director of the National Census and Statistics Office or in his absence, the Assistant Executive Director.

Assisted by the Task Force from the Central Office and in coordination with the local census boards, the Regional Census Officers and the Provincial Census Officers directly supervised the field operations in their respective areas. The services of District Supervisors, Head Teachers and elementary school teachers from public schools were utilized as City/Municipal Census Supervisors, Team Supervisors and Enumerators in that order.

During the field operations, the 1980 Census Operations Center under the overall supervision of the National Census and Household Surveys Department Chief, was the operating body that monitored the overall operations. Lending support to the center were the Administrative and Fiscal Services Staff.

### **METHOD OF ENUMERATION AND USE OF SAMPLING**

The household was used as the enumeration unit and a complete listing of dwelling units, including vacant ones, was done.

A combination of complete enumeration and sampling was adopted. While all households were asked on the count of the population and housing characteristics, only twenty percent (20%) were asked on other characteristics. The selection of sample households was done systematically with a random start from a listing of households which was prepared simultaneously with the enumeration.

Using PH Form 2 (Common Private Household Questionnaire) and with an 80 percent coverage, the items asked on population were household membership, relationship to head, line number of mother, sex, date of birth, age as of last birthday and marital status. For the housing items, the type of building and the construction materials of roof and outer walls, number of rooms, floor area of the dwelling unit and the year the building was built were asked.

In addition to the population and housing items just mentioned, additional information were asked using PH Form 3 (Sample Private Household Questionnaire) from the 20 percent samples such as language or dialect generally spoken at home, citizenship, usual residence of mother at person's birth, residence of person in 1975, ability to speak Pilipino and English, school attendance, highest grade completed, literacy, economic activity of the person, place of schooling or work, fertility, nature of occupancy of the dwelling unit and housing facilities and conveniences.

Collective households were enumerated using PH Form 4, where the information asked were the same as those in PH Form 2, excluding housing items.

### **PLACE WHERE ENUMERATED**

All persons were enumerated in their usual place of residence, which is the geographic place (street, barangay, sitio, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he usually sleeps; therefore, it may be the same as or different from the place where he was found at the time of the census.

## EXPLANATORY TEXT

### POST ENUMERATION SURVEY

Originally the plan was to conduct a Post Enumeration Survey covering the whole country. For lack of funds the survey had to be confined to Metro Manila. Its purpose was to determine the extent of underenumeration or overenumeration in the 1980 Census of Population and Housing.

A sample of 132 barangays was selected. However, in 59 barangays which were divided into two or more enumeration areas (EAs), an enumeration area was chosen as sample.

A complete listing was made of households in the sample barangays/EAs using PH Form 1-B. Twenty percent of these households were selected as sample households and interviewed using PH Form 2, which was the same questionnaire used for non-sample households during the main enumeration. The housing portion of this form was disregarded.

### CONTENT AND COVERAGE OF THE PUBLICATION

In this publication, the population and households were described according to the respective items listed below:

Population Items	Housing Items
Age	Type of Building
Sex	Type of Occupancy
Marital Status	Construction Materials of Roof and Outer Walls
Highest Grade Completed	Year Built
Literacy	Floor Area of Dwelling Unit
Language/Dialect Spoken in the Household	Tenure of Owner-Occupant with Respect to the Land
Gainful and Non-Gainful Occupation	Kind of Lighting Facilities
Major and Minor Industry	Use and Source of Water Supply
Migration	Type of Toilet Facilities
	Kind of Cooking Fuel
	Household Appliances

The above items are presented in the ten population tables and nine housing tables of this report.

Except for figures on total population and sex, all other characteristics were based on a 20 percent sample.

Aside from these published tables, 10 other tables on the above characteristics plus 6 statistical tables dealing on ever-married women 15 years old and over are also available to statistical users.

### DEFINITION OF TERMS AND CONCEPTS

#### I - POPULATION

##### BARANGAY

A barangay is the smallest political unit in the country and generally its enumeration is

## EXPLANATORY TEXT

assigned to one enumerator. For enumeration purposes, a large barangay is usually split into parts and each part is called an enumeration area (EA).

### ENUMERATION AREA

An enumeration area (EA) is a delineated area assigned to one enumerator, usually consisting of about 300 households. A barangay or part of a barangay may have been designated as an enumeration area.

### URBAN AND RURAL AREAS

The same concepts used in the 1970 and the 1975 Censuses were followed in classifying areas as urban. According to these concepts, urbanized areas consist of:

1. In their entirety, all cities and municipalities having a population density of at least 1,000 persons per square kilometer.
2. Poblaciones or central districts of municipalities and cities which have a population density of at least 500 persons per square kilometer.
3. Poblaciones or central districts (not included in 1 and 2), regardless of the population size, which have the following:
  - a. Street pattern, i.e., network of streets in either parallel or right-angle orientation;
  - b. At least six establishments (commercial, manufacturing, recreational and/or personal services); and
  - c. At least three of the following:
    - 1) A town hall, church or chapel with religious services at least once a month;
    - 2) A public plaza, park or cemetery;
    - 3) A market place or building where trading activities are carried on at least once a week;
    - 4) A public building like a school, hospital, puericulture and health center or library.
4. Barangays having at least 1,000 inhabitants which meet the conditions set forth in 3 above, and where the occupation of the inhabitants is predominantly non-farming or fishing.

All areas not falling under any of the above classifications are considered rural.

### PERSONS ENUMERATED IN A PRIVATE HOUSEHOLD

The following were counted and enumerated as members of the household:

1. Persons whose usual place of residence is the place where the household lives and present at the time of visit of the enumerator, except those born after 12:01 A.M., May 1, 1980;
2. Persons whose usual residence is the place where the enumerated household lives, but temporarily away at the time of enumeration, such as:
  - a. persons temporarily away on vacation, business or pleasure trip or any other purpose in the Philippines who are expected to be back within six months,

## EXPLANATORY TEXT

- or within one year, if abroad;
- b. students who usually go home to their respective households at least once a week;
  - c. persons working elsewhere who usually go home to their respective households at least once a week;
  - d. patients confined in hospitals for not more than six months at the time of enumeration of the household, except those confined (1) as inmates (not patients in wards for temporary confinement) in tuberculosis pavilions; (2) in mental hospitals; (3) in leprosaria or leper colonies; and (4) in rehabilitation centers for drug addicts;
  - e. trainees in the Armed Forces of the Philippines, if their training is not more than six months;
  - f. convicts and detainees in provincial or municipal/city jails or military camps, who have been confined for not more than 6 months at the time of enumeration of the household, except those who have been sentenced for more than 6 months (including those whose sentence is on appeal), even though just confined; and
  - g. officers and crew members of coastal, interisland, or fishing vessels; officers and crew members of ocean-going vessels who usually go home to their household at least once a year.
3. Boarders of the household who are working, looking for work or studying, and who do not go home at least once a week;
  4. Employees of household-operated enterprises who eat and sleep with the household and who do not go home at least once a week;
  5. Persons (other than those in "3" and "4") whose usual place of residence is elsewhere, but who have been away from their usual place of residence for more than 6 months;
  6. Members of the Armed Forces of the Philippines including draftees, sleeping most of the nights with the household, except those who only board or lodge with the household and who usually go home at least once a week; in such a case, they will be enumerated in their own household;
  7. Persons found in the household who have no usual place of residence elsewhere;
  8. Persons found in the household who are not certain of being enumerated elsewhere;
  9. Persons who consider the dwelling unit of the household as their usual place of residence but are living within the premises of a foreign embassy, ministry, legation or consulate, including non-Filipino employees who have been residents of the Philippines before such employment;
  10. Citizens of foreign countries and Filipinos (balikbayan) who have resided or expect to reside in the Philippines for more than one year from arrival;
  11. Persons who sleep in the same dwelling unit but may not be able to take all or some of their meals with the household because of the nature of their work or other similar reason (they take their meals at place of work, etc.), should be considered as part of the household; and
  12. A household member who is alive as of 12:01 A.M., May 1, 1980, but dies prior to the enumeration of the household.

## EXPLANATORY TEXT

### PERSONS TOTALLY EXCLUDED FROM THE ENUMERATION

Totally excluded from the population count of the Philippines were:

1. Foreign ambassadors, ministers, consuls or other diplomatic representatives, and members of their households (except Filipino employees and non-Filipino employees who had been residents of the Philippines prior to said employment);
2. Citizens of foreign countries living within the premises of an embassy, legation, chancellery or consulate;
3. Officers and enlisted men of U.S. Military or Naval Forces and non-Filipino members of their households, irrespective of residence; foreigners who are civilian employees in U.S. military or naval stations and member of their families living within the premises of said stations or reservation; (Note: for foreigners who are civilian employees of said stations living outside the station or reservation, see Item 5).
4. Citizens of foreign countries who are Chiefs and officials of international organizations like UN, ILO or USAID, who are subject to reassignment to other countries after their tour of duty in the Philippines, and members of their families;
5. Citizens of foreign countries together with non-Filipino members of their families, who are students or who are employed, or have business in the Philippines and have been in the Philippines or expect to stay in the country for one year or less from arrival;
6. Citizens of foreign countries and Filipinos with usual place of residence in a foreign country, who are visiting in the Philippines and expect to stay in the country for one year or less from arrival (e.g. a *balikbayan* who will return to his usual place of residence abroad after a short vacation or visit in the Philippines);
7. Citizens of foreign countries in refugee camps/vessels; and
8. Residents of the Philippines on vacation, pleasure or business trip, etc. abroad, who have been away or expected to be away from the Philippines for more than one year from departure.

### USUAL PLACE OF RESIDENCE

The term refers to the geographic place (street, sitio, barrio/barangay, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he sleeps most of the time; hence, it may be the same as or different from the place where he was found at the time of the census.

### HOUSEHOLD

A household usually consists of a group of persons who sleep in the same dwelling unit and have common arrangements for the preparation and consumption of food. A person who lives alone is considered as one separate household. Although in most cases a household consists of a related family group, some household members may have no relationship to the central group. Boarders and servants, for instance are counted as part of a particular household if they take their meals with the household and sleep in the same dwelling unit. Persons who sleep with a household but individually cook their meals or eat elsewhere are each considered as single-person household.

## **EXPLANATORY TEXT**

Three generations may be living in one dwelling unit. If they are divided into two or more groups whose eating arrangements are independent from each other, each group is counted as a separate household.

### **PERSONS NOT LIVING IN HOUSEHOLD**

Falling under this category are persons living in collective living quarters such as welfare institutions (orphanages and homes for the aged or infirm); penal and corrective institutions (jails, national penitentiary, and reformatory institutions); hospitals, sanatoria, leprosaria, and nurses homes; dormitories and boarding schools; lodging houses such as hotels, tourist homes and the like; military camps and others.

Most of these institutions house inmates for whom care or custody is provided by resident staff members, or persons residing in group quarters or in housing units on the institutional grounds.

Private families living within such institutions, however, are excluded from the classification, as well as persons (employees, students, etc.) who go home to their families on weekends or days off. Persons found in lodging houses, but who are on vacation or business trips and whose absence from home does not exceed six months on the day of enumeration, are likewise not counted as part of the institutional population.

### **RESPONDENT**

A respondent is any responsible adult member of the household who furnished the information or answers to questions during the interview.

### **LANGUAGE/DIALECT GENERALLY SPOKEN IN THE HOUSEHOLD**

This refers to the language or dialect spoken most of the time by members of the household. In cases where two or more languages/dialects are spoken by household members, the one most often used in conversations among members of the family of the head when most of them are gathered together is considered as the language/dialect generally spoken in the household.

### **HEAD OF HOUSEHOLD**

The person responsible for the care and organization of the household is generally considered as the head of the household. He usually provides the chief source of income for the household.

In the case of a household consisting of two or more unrelated persons sharing a dwelling unit and sharing the same cooking facilities and meals, the head is usually the eldest male or female in the group regarded as such by the other members.

### **RELATIONSHIP TO HEAD OF HOUSEHOLD**

This determines how each household member is related to the head, who is usually the husband or father, although in his absence or if incapacitated, the wife may be designated as head.

1. Spouse — a woman/man married to and living with the head. This includes legal marriages as well as common-law relationships.
2. Son/daughter — the head's own child, stepchild, or adopted child.

## EXPLANATORY TEXT

3. Son-in-law/daughter-in-law refers to a household member related to the head by marriage to his daughter or son.
4. Grandson/granddaughter child of the son or daughter of the head.
5. Other relative - a household member related to the head by blood, marriage, or adoption. Father, mother, aunts, nephews, parents-in-law and cousins are examples.
6. Others - any person in the household who is usually a non-relative of the head. Boarders and servants fall under this category. Certain members of the household who are related to the head by blood or affinity, but are actually boarders or servants in the household, are classified under "Others".

For collective households and group quarters, the question on relationship refers to the person's relationship to the institution or establishment, and not to the person recorded as head.

## AGE AND DATE OF BIRTH

Data on the age of the population were obtained by asking the respondent the month and year of birth and the age itself of the household member before May 1, 1980. To ensure accuracy, a conversion table on age before May 1, 1980 was prepared for the use of enumerators, editors/coders and verifiers.

## MARITAL STATUS

This refers to the civil status of all persons 10 years old and over. A person in this age group is classified as single, married, widowed, separated or divorced, or civil status unknown, based on the following definitions:

- a. Single - If never been married.
- b. Married - Legally married or living consensually with husband/wife without benefit of a legal marriage. A person classified as "married" includes one who remarried after having been widowed, separated or divorced or one temporarily separated from spouse owing to the nature of work, illness or service in the Armed Forces.
- c. Widowed - A person whose spouse died and who has not remarried at the time of enumeration.
- d. Separated - If permanently separated from spouse either legally or otherwise, due to marital discord.
- e. Divorced - If bond of matrimony has been dissolved through a court decree and is therefore free to remarry.
- f. Unknown - If civil or marital status is either not known to the respondent, or the respondent himself refuses to reveal the marital status of such person.

## CITIZENSHIP

Citizenship is defined as the legal nationality of a person. A citizen is a legal national of the country of the census; an alien is a non-national of the country.

## LITERACY

A person is considered literate if he is able to read and write a simple message in any language or dialect.

## **EXPLANATORY TEXT**

### **HIGHEST GRADE COMPLETED**

This has reference to the specific grade or year completed in elementary school, high school, college or university, by persons 7 years of age and over. Academic degree holders are classified according to the title of the degree received or the major field of study undertaken.

### **USUAL OCCUPATION**

This refers to the specific job or kind of work that a person, who works most of the year, is usually pursuing, or if unemployed at the time of enumeration, it is the kind of work he used to do most of the year. A person is considered as usually working most of the year if he works for at least 10 hours a week for 26 weeks either for pay in cash or in kind, for a fee or profit in own farm, business or establishment or practice of a profession and without pay on family farm or enterprise. This particular group of workers is referred to as gainful workers.

For persons who do not work most of the year, the usual occupation relates to the non-gainful activities they usually do most of the year. Among such persons are housekeepers, students, pensioners, retired and disabled. However, a person who is housekeeping or schooling and also works in a gainful activity was reported as gainfully employed, even if more time was spent housekeeping or studying, as the case may be.

### **INDUSTRY**

Industry refers to the specific character and nature of business or industry or the place where the work is being performed in connection with the job or occupation reported for a person.

### **EVER-MARRIED WOMAN**

This refers to a woman who has already entered married life. Marriage here may either be legal or consensual union. At the time of enumeration the ever-married woman may still be married, or already widowed, separated or divorced.

## **II – HOUSING**

### **BUILDING**

A building is any independent free-standing structure comprising one or more rooms or other spaces, covered by a roof and enclosed within external walls or dividing walls with adjacent building which usually extend from the foundation to the roof. It usually contains one or more rooms internally connected with one another. A building therefore, is any structure intended for dwelling, storage, factory, shelter or for some other useful purposes.

For purposes of the 1980 Census of Population and Housing, only the following buildings were listed and assigned building serial numbers:

- a. A house or any kind of building or shelter where people were actually living;
- b. A residential building (house, apartment or accesorias, condominium) that was vacant;

## EXPLANATORY TEXT

- c. Hotel, motel, lodging house, dormitory or camp (construction, logging, mining, etc.) in operation;
- d. A commercial, office, industrial, agricultural or other kinds of buildings with one or more dwelling units (containing a kitchen/kitchen-dining room, living room and a bedroom, and with separate entrance) which were all vacant.

The different types of buildings are:

1. **Single house** – a complete structure intended for one household. It includes the so-called “nipa hut” or a small house that is built as a more or less permanent dwelling unit.
2. **Duplex** – a structure intended for two households, with complete living facilities for each. It is divided either vertically or horizontally into two separate dwelling units which are usually identical.
3. **Apartment/accesoria/condominium/row house**

An apartment is a structure usually of several stories, made up of three or more independent entrances from internal halls or courts. It differs from an accesoria in that an apartment has one common entrance from the outside.

An accesoria is usually a one or two-floor structure divided into three or more dwelling units, each dwelling unit having its own separate entrance from the outside. Another name for accesoria is row house.

A condominium is usually a high-rise building where the dwelling units are owned individually but the land and other areas and facilities are owned in common.

4. **Improvised (barong-barong)** – a makeshift or roughly constructed house usually built with salvaged materials.
5. **Commercial/industrial/agricultural** – buildings not intended for human habitation but used as dwelling units at the time of the census.

**Commercial** – a building used for transacting business or rendering professional services, such as a storage or an office building.

**Industrial** – a building used for processing, assembling, fabricating, finishing, manufacturing or packaging operations, such as a factory or a plant.

**Agricultural** – any structure used for agricultural purposes, such as a barn, warehouse, rice mill, etc.

6. **Other housing unit (natural shelter, boat, etc.)**

This refers to living quarters which are not intended for human habitation nor located in permanent buildings but which are, nevertheless, used as living quarters at the time of the census. Caves, other natural shelters and mobile housing units such as trailer, barge, boat, etc., fall within this category.

7. **Hotel, lodging house, dormitory, etc.** – This group comprises permanent structures which provide lodging and/or meals on fee basis. Hotels, motels, inns, boarding houses, dormitories, pensions and lodging houses fall within this category.
8. **Institutional (hospital/convent/school dormitory/penal institution, etc.)** – a building intended for persons confined to receive medical, charitable, or other care treatment such as jails and penal colonies, and other buildings like convents, school dormitories, etc.
9. **Other collective living quarters** – any structure or shelter which does not fall under items 7 and 8. Included in this category are camps which are defined sets of

## **EXPLANATORY TEXT**

premises originally intended for the temporary accommodation of persons with common activities or interests like military camps, and other camps established for the housing of workers in mining, agriculture, public works or other types of enterprises.

### **DWELLING UNIT**

A dwelling unit is a separate and independent place of abode intended for habitation by one household, or one not intended for habitation but occupied as living quarters by a household at the time of the census.

Dwelling units counted included those that are occupied and those that are unoccupied.

### **CONSTRUCTION MATERIALS OF ROOF**

The kinds of materials used are as follows:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Asbestos
4. Cogon/nipa
5. Makeshift/salvaged materials
6. Others (anahaw, etc.)

### **CONSTRUCTION MATERIALS OF OUTER WALLS**

The kinds of materials may be any of the following:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Wood/plywood
4. Mixed tile/concrete/brick/stone and wood/plywood
5. Asbestos
6. Bamboo/sawali
7. Cogon/nipa
8. Makeshift/salvaged materials
9. Others (anahaw, etc.)

If the roof or outer walls are constructed of two or more materials the material most used was reported.

### **YEAR BUILDING WAS BUILT**

This refers to the year when the extent of construction permitted occupancy for living purposes. The year reported was the particular year when the occupancy started or when the building was fit for occupancy even if not occupied.

### **NUMBER OF ROOMS IN THE DWELLING UNIT**

A room is defined as a space in a dwelling unit or other living quarters enclosed by walls reaching from the floor to the ceiling or roof covering, or at least to a height of 1.8 meters which are of permanent or semi-permanent structure, of a size large enough to hold a bed for an adult or at least has an area of 3 square meters.

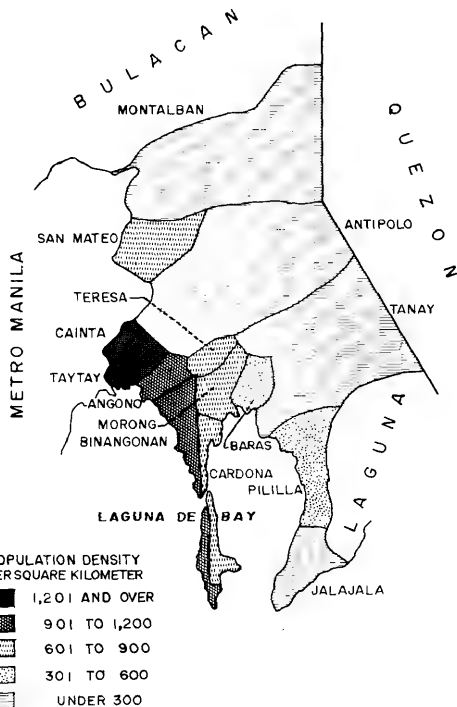

## **EXPLANATORY TEXT**

The total number of rooms reported included the bedrooms, dining room, living room, kitchen, roofed veranda, library or music room and other separate spaces used or intended for dwelling purposes, as long as they meet the criteria of walls and floor space. Passageways, lobbies, bathrooms and toilets or rooms used exclusively as store/shop/clinic/grains storage (nobody sleeps therein) were not counted as rooms even if they meet the criteria.

### **FLOOR AREA OF DWELLING UNIT**

This refers to the space enclosed by the exterior walls of the dwelling unit, or the space measured inside the outer walls of the spaces that are counted as rooms. In case of several floors, the area of each floor in square meters was taken and added together to get the total floor area of the dwelling unit. Areas of floor spaces that are not considered rooms such as bathroom, toilet, storeroom, passageway were excluded in determining the floor area.

POPULATION DENSITY BY MUNICIPALITY  
PROVINCE OF RIZAL : 1980

## **Rizal: A Brief Analysis**

Situated in the southwestern portion of Luzon, Rizal borders Quezon Province on the east, Manila Bay on the west, Bulacan on the north, Laguna de Bay on the south, and Cavite on the southwest. It encompasses a land area of 1,859.6 square kilometers — 0.62 percent of the total size of the country — stretching for about 70 kilometers from east to west and 80 kilometers from north to south.

Gently rolling hills and a few rugged ridges which comprise the southern foothills of the Sierra Madre Mountain Range define Rizal's eastern topography while the western part is mostly flat. At the foot of these elevations are valleys, the largest of which is the Marikina Valley. There are two main tributaries, the Pasig and the Marikina Rivers, and as many water reservoirs, the Montalban and the Novaliches Dams, the two chief sources of Manila's water supply.

Matched by no other province, Rizal swarms with industrial plants of diverse specialization, from processors of food to makers of pharmaceutical and chemical products, from textile manufacturers to those engaged in the separation of metals from their ores and other metallurgic operations. Some municipalities of Rizal are simply far from ordinary. A large number of high-rise buildings housing the country's biggest financing and banking institutions and other business corporations are found in Makati, thus Makati is often referred to as "the Wall Street of the Philippines". Marikina is regarded as the shoe-making center of the country while Navotas boasts of the largest and most modern fishing port complex.

All in all, Rizal has 3 cities and 26 municipalities. It comprises the great bulk of the National Capital Region (Metropolitan Manila) with all of its cities and 12 of its towns including its capital, Pasig, joining this highly urbanized contiguous area whose efficient management is undertaken by the Metropolitan Manila Commission.

### **POPULATION**

Excluding its three cities and 12 municipalities placed along with Manila and Valenzuela under the Metropolitan Manila Commission, Rizal had on May 1, 1980 a total population of 555,533. Its population swelled by 141,341 or 34.12 percent during the five-year period since the first quinquennial census on May 1, 1975. The annual rate of growth of the population during the same period averaged 6.05 percent, which is practically unchanged from the

## A BRIEF ANALYSIS

yearly 6.16 percent rate of increase in the preceding 1970-75 intercensal period. This growth underscores the unabated heavy flow of people to Rizal<sup>1</sup> from the rest of the country. Rizal's population density jumped from 316.4 to 424.4 persons per square kilometer over the past five years, one of the highest in the country.

With its urban population rising from 53.53 percent in 1975 to 75.00 percent in 1980, Rizal is well on the way to attaining complete urbanization. The number of rural dwellers decreased from 192,457 in 1975 to 138,897 in 1980, or down by 27.83 percent. In contrast, the urban population increased by 87.90 percent, from 221,735 to 416,636. Between 1970 and 1975, however, both had increased with the rate of growth of the urban population more than double that of the rural population — 49.69 percent versus 20.96 percent.

The following table shows the distribution of the population by urban-rural residence and sex for the past 10 years:

**TABLE A — URBAN-RURAL POPULATION BY SEX,  
RIZAL: 1970, 1975 AND 1980**

Area Classification and Sex	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>555,533</u>	<u>100.00</u>	<u>414,192</u>	<u>100.00</u>	<u>307,238</u>	<u>100.00</u>
Male	277,656	49.98	209,294	50.53	153,743	50.04
Female	277,877	50.02	204,898	49.47	153,495	49.96
Urban	<u>416,636</u>	<u>75.00</u>	<u>221,735</u>	<u>53.53</u>	<u>148,125</u>	<u>48.21</u>
Male	206,178	37.11	111,167	26.84	73,608	23.96
Female	210,458	37.89	110,568	26.69	74,517	24.25
Rural	<u>138,897</u>	<u>25.00</u>	<u>192,457</u>	<u>46.47</u>	<u>159,113</u>	<u>51.79</u>
Male	71,478	12.87	98,127	23.69	80,135	26.08
Female	67,419	12.13	94,330	22.78	78,978	25.71

The females outnumbered the males by 221 (277,877 versus 277,656), registering a sex ratio of 99.92. A comparable narrow margin, but with the males in excess, existed in 1970, but by 1975 the males increased considerably their predominance. Apparently, the females posted a faster rate of growth than the males between 1975 and 1980 (35.62% versus 32.66%) to enable them to narrow the gap and even overtake the latter at the close of this

<sup>1</sup> Rizal is treated for the entirety of this report without its cities and towns that are included in the National Capital Region (Metropolitan Manila).

## A BRIEF ANALYSIS

intercensal period. The urban population has become predominantly female as evidenced by a sex ratio of 97.97. The rural population, on the other hand, has a sex ratio of 106.02 to continue having more males.

As shown in Figure 1, the proportions of urban and rural males to the total population decrease as each age group advances. This pattern is almost duplicated by the proportion of females, both urban and rural. For the urban females, deviation from the pattern occurs between the 15-19 and 20-24 age groups – the latter's proportion exceeds that of the former.

### AGE COMPOSITION

More than two-fifths (41.08%) of the total population are 0-14 years of age; 56.26 percent, 15-64 and 2.66 percent, 65 and over. As the following table shows, the past ten years (1970-80) have seen a continued decline of the proportion of children under 15 years of age and a continued increase of the proportion of persons 15-64 years old, generally considered the productive ages. Meanwhile, the proportion of the elderly (those 65 and over) gained by 0.20 percentage point from 1970 to 1980.

## A BRIEF ANALYSIS

**TABLE B — AGE COMPOSITION OF THE POPULATION,  
RIZAL: 1970, 1975 AND 1980**

Age Composition	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>555,533</u>	<u>100.00</u>	<u>414,192</u>	<u>100.00</u>	<u>307,238</u>	<u>100.00</u>
0-14 years	228,197	41.08	178,682	43.14	138,025	44.92
15-64 years	312,540	56.26	225,269	54.39	161,666	52.62
65 years and over	14,796	2.66	10,241	2.47	7,547	2.46

Between 1975 and 1980 the number of elderly persons grew by 44.48 percent, a rate of increase faster than that of either the population 15-64 years old (38.74%) or the population 0-14 years old (27.71%). Earlier, in 1970-75, the 15-64 age group grew by 39.34 percent, followed by the 65 and over (35.70%) and the under 15 (29.46%).

The urban population approaches the age structure of the total population more closely than does the rural population. Of all urban residents, 40.67 percent are 0-14 years old; 56.66 percent, 15-64; and 2.67 percent, at least 65. The comparable figures for the rural dwellers are 42.29, 55.05 and 2.66 percent, respectively.

The population as a whole is young. It has a median age of 19 years. The urban population has a slightly higher median age than the rural population (19 versus 18).

As a result of an increased proportion of the 15 to 64 years old the overall dependency ratio fell from 83.86 in 1975 to 77.75 in 1980. Urban dependency ratio (76.48) is lower than that of the rural population (81.65).

### MARITAL STATUS

More than half (52.52%) of all persons 10 years of age and older were married; 43.52 percent, never married; 3.21 percent, widowed and 0.64 percent, divorced or separated. From 1975 to 1980, the number of those married increased by 47.78 percent, well outpacing the 23.66 percent rate of growth for the single population. Tremendous growth hit the widowed population (up by 40.25%) and especially, the divorced or separated population (up by 102.76%). The proportion of the total population 10 years old and over who were never married decreased during this period (down by 4.45 percentage points). All the other proportions increased, with the largest gain, 4.08 percentage points, being recorded by the married proportion. Despite their spectacular growth rates, the proportions for the widowed and divorced or separated rose only a little, by 0.09 and 0.21 percentage point, respectively. Comparatively, the growth rates for the different marital status between 1970 and 1975 not only varied far less widely, but also were highest for the married and single populations — 39.67 and 37.42 percent, respectively. Moreover, the number of those widowed increased at a slightly faster rate (19.45%) than the divorced or separated population (18.94%). During this period, only the married proportion showed a gain.

## A BRIEF ANALYSIS

Being married is currently the most common marital status for both the males and the females. Over half of the males (52.73%) and the females (52.32%) are married. The proportion of the males who are never married (45.12%) is markedly greater than that of the females (41.95%). Females are almost three times as likely to be widowed as the males - 4.73 percent versus 1.66 percent. Compared with only 0.40 percent for the males, 0.87 percent of the females are divorced or separated.

The distribution of the population 10 years old and over by sex and marital status in the last 10 years is given below:

**TABLE C -- POPULATION 10 YEARS OLD AND OVER  
BY SEX AND MARITAL STATUS,  
RIZAL: 1970, 1975 AND 1980**

Sex and Marital Status	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Both Sexes	<u>393,234</u>	<u>100.00</u>	<u>288,515</u>	<u>100.00</u>	<u>209,393</u>	<u>100.00</u>

## A BRIEF ANALYSIS

### HIGHEST GRADE COMPLETED

Merely 4.06 percent of the private household population 7 years of age and older are without any formal education, down from 6.53 percent in 1975. Similarly, those with elementary education decreased from 57.21 to 52.08 percent in 1980, although elementary schoolers showed an absolute increase of 40,874 persons. On the other hand, the proportion of the private household population 7 years old and over who have studied up to the secondary level increased from 24.30 percent in 1975 to 29.00 percent in 1980 - a gain of 4.70 percentage points. College undergraduates, whose number nearly doubled, rose 2.86 percentage points to 9.16 percent. The number of academic degree holders grew by 73.54 percent, but their proportion went up only slightly, from 4.14 to 5.36 percent.

The succeeding table gives the distribution of the private household population 7 years old and over by highest grade completed for the past five years:

# A BRIEF ANALYSIS

TABLE D — PRIVATE HOUSEHOLD POPULATION 7 YEARS OLD  
AND OVER BY HIGHEST GRADE COMPLETED,  
RIZAL: 1975 AND 1980

Highest Grade Completed	1980		1975	
	Number	Percent	Number	Percent
Total	<u>433,852</u>	<u>100.00</u>	<u>323,485</u>	<u>100.00</u>
No grade completed	17,623	4.06	21,109	6.53
Elementary	225,932	52.08	185,058	57.21
High school	125,834	29.00	78,619	24.30
College	39,725	9.16	20,381	6.30
Academic degree holder	23,241	5.36	13,392	4.14
Not stated	1,497	0.34	4,926	1.52

## A BRIEF ANALYSIS

Graduates of the sixth and seventh grades compose mostly the population of the elementary educated (38.08%), followed by those who have not gone beyond the third grade (32.55%). Persons who have attended as far as the fourth and fifth grades constitute 16.92 and 12.45 percent, respectively. More than half of those trained until the high school stage have not studied past third year (54.15%); 45.85 percent are secondary graduates. A vast majority of the college undergraduates have completed at maximum third year (78.42%); only 21.58 percent have finished fourth year or higher (Table 5).

### LITERACY

For private household population 10 years of age and older, the literacy rate stands at 91.09 percent. Urban literacy rate is 91.93 percent while that of the rural population is 88.50 percent. Female literacy rate (90.67%) is lower by 1.37 percentage points than that of the males (92.04%).

## A BRIEF ANALYSIS

### LANGUAGE OR DIALECT

Tagalog is the dominant dialect, with 97.57 percent of the total private households using it. The proportions of urban and rural households speaking Tagalog, 97.70 and 97.21 percent, respectively, both approach the overall proportion.

There are numerous other languages and dialects spoken in Rizal, reflecting for the most part the multifarious origins of people who have settled in the province. But each of these dialects is being used by only a fraction of the total private households.

### GAINFUL OCCUPATION

Persons 15 years of age and older with gainful work aggregate 171,348. The males make up 70.34 percent as against only 29.66 percent for the females.

Roughly half of the gainfully employed (47.52%) are production and related workers, transport equipment operators and laborers. Within this major occupation group, the number of male workers is more than two and a half times that of female workers. Agricultural, animal husbandry and forestry workers, fishermen and hunters account for 17.29 percent. A little less than a tenth (9.84%) are service workers, who are evenly divided between the two sexes. Sales workers, an occupation group predominated by women (56.42%), comprise 8.64 percent. Only 7.49 percent are professional, technical and related workers, of whom

## A BRIEF ANALYSIS

54.80 percent are women. Clerical and related workers, who are mostly males (55.42%), constitute 5.86 percent. Less than one percent (0.97%) are administrative, executive and managerial workers with males accounting for 4 out of every 5 of these workers. Workers not classifiable by occupation compose 2.39 percent.

The next table shows the breakdown of all gainful workers 15 years old and over by major occupation group:

**TABLE E — GAINFUL WORKERS 15 YEARS OLD AND OVER  
BY MAJOR OCCUPATION GROUP,  
RIZAL: 1980**

Major Occupation Group	1980	
	Number	Percent
Total	171,348	100.00
Professional, technical and related workers	12,831	7.49
Administrative, executive and managerial workers	1,670	0.97
Clerical and related workers	10,036	5.86
Sales workers	14,809	8.64
Service workers	16,870	9.84
Agricultural, animal husbandry and forestry workers, fishermen and hunters	29,622	17.29
Production and related workers, transport equipment operators and laborers	81,422	47.52
Workers not classifiable by occupation	4,088	2.39

## INDUSTRY

Manufacturing, by far the largest major industry group, claims 28.73 percent of the total gainful employment. Majority of the workers under this group belong to the textile, wearing apparel and leather sector (54.81%), followed by the wood and wood products sector (13.07%) and the field of fabricated metal products, machinery and equipment (9.85%). Agriculture, fishery and forestry, the leading major industry group in nearly all the other provinces, account for 19.41 percent of the total gainful employment. Close to three-fifths (58.32%) of the workers contributed by this group are engaged in agricultural crop produc-

## A BRIEF ANALYSIS

tion; 27.65 percent are into fishery and 9.73 percent, production of livestock, poultry and other animals. Community, social and personal services comprise 17.90 percent of the total gainful workers with chief concentration in two areas: personal and household services (39.91%) and public administration and defense (19.80%). The construction industry employs 9.77 percent; transportation, storage and communication, 9.02 percent; wholesale and retail trade, 7.48 percent; financing, insurance, real estate and business services, 3.85 percent; mining and quarrying, 1.31 percent; electricity, gas and water, 0.97 percent and activities not adequately defined, 1.56 percent.

## A BRIEF ANALYSIS

### MIGRATION

Of all the males 5 years of age and older in private households, 11.94 percent resided on May 1, 1975 in another province; 4.48 percent, in another town of Rizal and 0.17 percent, in a foreign country. The comparable proportions for the females of the same age are: 12.63, 4.55 and 0.22 percent, respectively. When these males and females moved out later, whether from another province or another town of Rizal or abroad, majority of them settled in urban areas.

### TYPE OF BUILDING

The next table shows that majority (83.50%) of the 99,643 households are occupants of single houses. Only 6.28 percent live in apartments/accesorios/condominiums/row houses, etc.; 4.96 percent, in duplexes, and 4.46 percent, in improvised structures. Urban households account for 73.85 percent of all households in single houses; 88.52 percent, apartments/accesorios/condominiums/row houses, etc.; 74.03 percent, duplexes; 74.45 percent, improvised structures and 72.13 percent, commercial/industrial/agricultural buildings.

TABLE F — NUMBER OF HOUSEHOLDS IN OCCUPIED DWELLING UNITS  
BY TYPE OF BUILDING, RIZAL: 1980

Type of Building	1980	
	Number	Percent
Total	<u>99,643</u>	<u>100.00</u>
Single house	83,200	83.50
Duplex	4,940	4.96
Apartment/accesoria/condominium/ row house/etc.	6,256	6.28
Improvised (barong-barong)	4,446	4.46
Commercial/industrial/agricultural	610	0.61
Other housing unit: natural shelter, boat, etc.	136	0.14
Hotel, lodging house, dormitory, etc.	21	0.02
Institutional (hospital, convent, school dormitory, etc.)	29	0.03
Other collective living quarters (military camp, etc.)	5	—

## A BRIEF ANALYSIS

### TYPE OF OCCUPANCY

Close to three-fourths (73.65%) of the private households reside in dwelling units that they own. Only 15.74 percent occupy their units as tenants/lessees; 10.01 percent, free renters and 0.60 percent, subtenants/sublessees. The percentage of ownership in rural areas (80.01%) is higher than that in the urban areas (71.51%).

### CONSTRUCTION MATERIALS OF ROOF AND OUTER WALLS

Galvanized iron or aluminum is the roofing of dwelling units where a vast majority (85.22%) of the households are sheltered, followed by cogon/nipa (9.34%), makeshift/salvaged materials (3.70%), tile concrete/brick/stone (0.93%), asbestos (0.44%), and other materials such as anahaw (0.37%). A higher proportion of urban (87.76%) than rural households (77.67%) occupy units that are roofed with galvanized iron or aluminum.

More than one-third (34.67%) of the households live in dwelling units with outer walls of mixed tile/concrete/brick/stone and wood/plywood and of wood/plywood (34.31%). For the other dwelling units, the distribution of households according to materials of outer wall are as follows: bamboo/sawali, 11.52 percent; tile concrete/brick/stone, 9.90 percent; makeshift/salvaged materials, 4.47 percent; galvanized iron, aluminum, 3.43 percent; cogon/nipa, 1.34 percent; asbestos, 0.08 percent and other materials such as anahaw, 0.28 percent.

### YEAR BUILT

Households in buildings of recent construction, i. e., those built between 1976 and 1980, account for 36.64 percent while those in buildings erected in 1941 or earlier, 3.21 percent. About a fourth (24.53%) reside in buildings constructed in 1971-1975; 21.59 percent, 1961-1970; 9.38 percent, 1951-1960 and 4.65 percent, 1942-1950.

### FLOOR AREA OF DWELLING UNIT

Dwelling units which are less than 30 square meters in floor area accommodate 43.83 percent of all households. Almost a tenth (9.80%) live in units measuring 100 square meters or more. The rest of the households are distributed as follows: 27.29 percent, 30-49 square meters; 11.07 percent, 50-69 square meters and 8.01 percent, 70-99 square meters.

### TENURE OF OWNER—OCCUPANT WITH RESPECT TO THE LAND

Of all households residing in dwelling units that they own, 71.23 percent are at the same time owners of the land where their units are erected; 9.74 percent, lessees/sublessees and 2.99 percent, farm lessees/agricultural tenants of landowners. Those enjoying other legal tenure number 5.98 percent. A little over one-tenth (10.06%) have no tenure at all.

### SOURCE AND USE OF WATER SUPPLY

Tubed or piped deep well, largely public, is the most common source of water supply for each of the three uses of water considered in the 1980 census — 45.18 percent of all households for drinking, 45.36 percent for kitchen use and 41.96 percent for washing clothes. Following next is the community water system, with 38.73 percent of all households relying on it for drinking, 36.46 percent for kitchen use and 33.84 percent for laundry. Most of these households obtain water from this source through faucets inside the house or yard. The proportion of households supplied by tubed or piped shallow wells ranges from 7.58

## A BRIEF ANALYSIS

percent for laundry to 8.29 percent for kitchen use. A low proportion of households (3.81%) gets water from dug well for drinking while 5.03 percent rely on it for kitchen use. The proportion of households utilizing spring water differs slightly by purpose, 4.07 percent for kitchen use and 3.86 percent, for laundry. Other sources of water supply are availed of by negligible proportions of the households except the 8.08 percent who wash their clothes in lake, river, irrigation, stream and the like.

### KIND OF LIGHTING FACILITIES

Electricity illuminates the abodes of 72.46 percent of all households; kerosene, 25.73 percent; liquefied petroleum gas (LPG), 1.39 percent; oil, 0.30 percent and other kinds, 0.12 percent. More than three-fourths (77.60%) of urban households use electricity, compared to 57.19 percent among rural households. Kerosene is used by 40.18 percent of rural households and 20.87 percent of urban households.

### COOKING FUEL

Roughly half of the total households (46.32%) use wood or charcoal, the most common cooking fuel in both the urban and rural areas. More than two-thirds (68.38%) of rural households use this fuel, compared with only 38.90 percent for urban households. LPG is used by 26.10 percent of all the households, with 29.28 percent of urban households and 16.65 percent of rural households utilizing it. Kerosene is used by 17.24 percent of the households; electricity, 9.70 percent and other fuel, 0.64 percent.

### TOILET FACILITIES

Almost two-thirds (65.12%) of all households have water-sealed toilets, distributed as follows: 33.77 percent, sewer/septic tank and exclusive for the households; 13.75 percent, also sewer/septic tank but shared with other households; 10.41 percent, other depository and exclusive and 7.19 percent, also other depository but shared. Only 13.40 percent have closed pit; 6.07 percent, open pit and 1.78 percent, other toilet types (pail system, etc.). Households without any toilet make up 13.63 percent.

The proportion of urban households with water-sealed toilets is substantially greater than that of rural households (69.54% versus 51.97%). About one-fifth of households in the rural areas have no toilet at all (18.40%), compared with 12.02 percent in the urban areas.

### OWNERSHIP OF RADIO, TELEVISION SET AND REFRIGERATOR/FREEZER

A little over three quarters (75.22%) of all households have radios; 36.67 percent own television sets and 24.20 percent, refrigerators/freezers. The proportions of urban (75.81%) and rural households (73.46%) possessing radios are nearly equal. A bigger proportion (40.95%) of urban households compared to rural households (23.93%) own television sets. Similarly, 28.31 percent of urban households and 11.99 percent of rural households have refrigerators/freezers.

[illegible]

6. **Building** (Enter per form 1)

7. **Unit**

H-1 to H-4 are to be asked only of the first sample household in every building (Repeat entries for other sample households in this building.)

Traceable  
sample  
household  
unit

H-1. What type is this building house?

- 1 Single House
- 2 Duplex
- 3 Apartment/Condominium/Condominium Row House/etc.
- 4 Improved (Manufactured)
- 5 Mobile Home
- 6 Other (Specify unit: semi-detached, town, etc.)
- 7 Boarding house, dormitory, etc.
- 8 Institutional (Hospital/University/School)
- 9 Government (Federal/State/County/Local)
- 10 Other (Specify: army camp, etc.)

H-2. What construction material is the roof?

- 1 Asphalt/Concrete
- 2 Clay/Concrete/Brick/Stone
- 3 Asphalt
- 4 Copper/Aluminum
- 5 Metal/Sheeted Metal
- 6 Other (Specify: tin, etc.)

H-3. What construction material is the other structure?

- 1 Other (Specify: brick, aluminum)
- 2 Clay/Concrete/Brick/Stone
- 3 Wood/Frame
- 4 Metal/Sheeted Metal/Stone and
- 5 Wood/Frame
- 6 Other (Specify: tin, etc.)
- 7 Aluminum/Steel
- 8 Metal/Sheeted Metal
- 9 Other (Specify: tin, etc.)

H-4. What was this building house built?

- 1 1900
- 2 1910
- 3 1920
- 4 1930
- 5 1940
- 6 1950
- 7 1960

## CERTIFICATION

I HEREBY CERTIFY that the data on this form were personally obtained by me in accordance with the rules and regulations promulgated by the National Census and Statistics Office

Name of person accomplishing this form  
(Printed Name & Sign)  
Date \_\_\_\_\_ 1980

PERSONS TO BE ENUMERATED AS MEMBERS OF COLLECTIVE HOUSEHOLDS

1. HOTELS, LODGING HOUSES, DORMITORIES, ETC.

- a. Proprietor, manager and employees living in the establishments, except those living therein with their own families and those who usually go home to their respective families at least once a week.
- b. Permanent lodgers/boarders (those who have stayed or expect to stay for one year or longer) and those temporary lodgers/boarders who have stayed for six months or longer as of May 1, 1980 or have been away from their own families for the same period. However, exclude those who usually go home at least once a week.
- c. Lodgers/boarders who are not residents of the Philippines and who have been in the Philippines for one year or longer as of May 1, 1980, or expect to stay in the Philippines for one year or longer. However, exclude those who have temporary place of residence elsewhere in the Philippines to whom they usually go home. Exclude also diplomatic representatives or UN, ILO or USAID officials who, like diplomatic representatives, are subject reassignment to other countries after their tour of duty in the Philippines, and members of their families.

2. HOSPITALS AND NURSES' HOMES

- a. All patients, including those just confined, in mental hospitals, leprosanaria or fever colonies, pavilions of tuberculous sanatoria where patients stay more or less permanently, and rehabilitation centers for drug addicts.
- b. Patients who have been confined for six months or longer as of May 1, 1980 in other kinds of hospitals and in wards for temporary confinement in tuberculous sanatoria.
- c. Nurses in nurses' homes who do not usually go home at least once a week.
- d. Staff members and employees living in hospitals/nurses' homes, except those living therein with their families and those who usually go home at least once a week.

3. WELFARE INSTITUTIONS (Homes for the Aged and Infirm, Orphanage, Boys' Town, etc.)

- a. All inmates or wards, including those just confined.
- b. Staff members and employees living in the institutions, except those living therein with their families and those who usually go home at least once a week.

4. CORRECTIVE AND PENAL INSTITUTIONS

- a. All prisoners in national prisons and reformatories (wellfare).  
b. Prisoners and detainees in provincial or city municipal jails who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980, or those whose sentence is for six months or longer even if the sentence is on appeal.
- c. Staff members and employees living in the institutions except those living therein with their own families and those who usually go home at least once a week.

5. CONVENTS, NUNNERIES, SEMINARIES, AND BOARDING SCHOOLS

- a. Monks, priests, nuns, seminarians, etc. However, priests or ministers of sects other than the Roman Catholic Church who live in the convent or house close to church or chapel with their own families are to be excluded (private households).
- b. Students in boarding schools (schools where students are required to stay in the school camp).
- c. Staff members, employees and helpers living in the premises, except those living therein with their own families and those who usually go home at least once a week.

6. MILITARY CAMPS AND STATIONS (PC, Army, Air Force and Navy): PMA

- a. Officers and enlisted men/marines, except those who live in the premises with their own families and those who usually sleep most nights with private households or in hotels, lodging places or dormitories. Include those belonging to the unit in the camp or station who are away on military operation or mission or aboard naval vessels. Except those whose families are living in the camp or station (their own families will report them).
- b. PMA cadets and trainees whose training is for six months or longer.
- c. Detainees who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980.
- d. Civilian employees living in the camp or station, except those living therein with their own families and those who usually go home at least once a week.

7. LOGGING, MINING AND CONSTRUCTION PUBLIC WORKS CAMPS, PLANTATIONS AND AGRICULTURAL/FISHERIES EXPERIMENTAL OR BREEDING STATIONS, ETC.

- a. Proprietor, manager, contractor and employees who do not live with their families in the premises and are supplied lodging (boardings, etc.) and/or meals by the company, firm, contractor or agency, except those who usually go home at least once a week.

8. OCEANGOING AND INTERISLAND/COASTAL VESSELS OR DEEP-SEA FISHING VESSELS

- a. Filipino crew members of ocean-going vessels (whose own families live in the Philippines) as port as of 12:01 A.M. May 1, 1980, except those who usually go home to their own families in the Philippines at least once every six months.
- b. Any crew member of interisland/coastal or deep-sea fishing vessel at port on any day during the enumeration, if the crew member has no home other than the vessel.

9. REFUGEE CAMPS

- a. Filipino citizens working and living inside the camps
